## Activity Information

# Air Rifle Shooting

Our aim is to provide an experience of shooting air rifles in a safe and controlled environment. This has been shown to increase concentration and self-control of the participant as well as taking some of the mysticism out of shooting which modern day computer games tends to give.

Our emphasis is safety at all times while not being too restrictive.

We recommend that this activity is for young people from the age of 8 years old to those of any age.

Shooting is an Olympic/International sport and many of the top participants have started their shooting career in Scouting.

It is important that we have the permission from the participant's parent/guardian (for participants under the age of 18) as it is understandable that some parents/guardians do not wish their children being taught to shoot. We only use approved targets (single or five part) and do not use targets that show living beings.

For further information, please contact our shooting team directly – [shooting@drumhill.org.uk](mailto:shooting@drumhill.org.uk)
